Build One South Africa (BOSA) has decried what it says is a failure by the Department of International Relations and Cooperation (DIRCO) to condemn the human rights abuses in government by the ANC's long-time ally in Zimbabwe, ZANU-PF. This is ahead of the upcoming 44th SADC Summit set to be held in Zimbabwe's capital city Harare this coming Saturday. DIRCO stated they are monitoring the situation and called for a dialogue to resolve the political challenges. BOSA leader Mmusi Maimane joins us for more.
